Fountains are not just fountains. We have the pleasure to introduce a selection of our standard floating and music fountains on the following pages.

On request or on order we can also deliver larger floating units and music fountains, which can be equipped with various different effects all after individual requirements and design.

We also build larger units, which can be installed in already existing pools or ponds, right after the desired design or purpose.

All Fountains are available with or without lighting and with or without colour change.

Control cabinet and DMX control are optional.

The **Floating Island** single jet fountain is a complete fountain system consisting of the following components:

- 1 x Pump
- 3 x LED lights
- 1 x Comet nozzle
- Control cabinet
- Stainless Steel pipeline
- Floating frame support
- Cables
- Consumption: 0.5 / 0.8 KW
- Pool size: min. 10 m

This fountain system can produce up to 6 m high water columns with great visibility. In strong sunlight the jets create a rainbow effect and in the evening they shine in bright white light.

It is possible to use a large variety of different nozzles in these floating fountains.

Easy to install, easy to clean and easy to operate.

Applications:

- Lakes
- Rivers
- Large pools and ponds

**A spectacular view even from long distance!**

**On request we can adjust the size and you can choose the desired nozzles!**

Chapter 3  page 2
The **Floating Island** two-tier jet fountain is a complete fountain system consisting of the following components:

- 1 x Pump
- 9 x LED lights
- 10 x Geyser nozzles
- Control cabinet
- Stainless steel pipeline
- Floating frame support
- Cables
- Consumption: 4,1 KW
- Pool size: min. 20 m

This fountain system can produce a 10 m high central jet in combination with a circular parabolic jets at Ø 7 x H 7 m.

The magnificent water display reminds of an amazing sculpture with spread wings, which is in constant movement. Especially impressive when illuminated at night.

Easy to install, easy to clean and easy to operate.

**Applications:**

- Lakes
- Pools
- Rivers
- Large ponds

**A true masterpiece of waterart!**

**On request we can adjust the size and you can choose the desired nozzles!**

The complete **Music Fountain** can be installed directly in the water as a floating unit or in a frame. The complete fountain system consists of the following components:

- 6 x Pumps
- 23 x LED lights with colour change
- 67 x Nozzles
- Control cabinet
- Pipeline in stainless steel
- Floating frame support
- Waterproofed cables
- Pool size: min. Ø 10 m
- Water depth: min. 65 cm
- Voltage: 3 x AC380 V/50Hz

This music fountain system produces 5 different water features:

- Centre high jet H. 9,1 m
- Inner parabolic jets H. 5,2 m
- Middle parabolic jets H. 3,5 m
- Outer parabolic jets H. 2,9 m
- Mist jets H. 1,1 m

This creates a stunning water display, dancing to the rhythm of the music you have chosen.

At night the fountain fascinates every spectator by the changing light and colour effects.

Easy to install, easy to clean and easy to operate.

Applications:

- Lakes
- Pools
- Big Ponds

*If you want all in one!*
The complete Music Fountain can be installed directly in the water as a floating unit or in a frame. The complete fountain system consists of the following components:

- 5 Pumps
- 42 LED lights - colour change
- 101 nozzles
- Control cabinet
- Pipeline in stainless steel
- Floating frame support
- Waterproofed cables
- Pool size: min. Ø 18 m
- Water depth: 95 cm
- Voltage: 3 x AC380 V/50Hz

This music fountain system produces 5 different water features:

- Centre high jet H. 15,0 m
- Inner parabolic jets H. 8,0 m
- Middle parabolic jets H. 5,5 m
- Outer parabolic jets H. 2,5 m
- Mist jets H. 1,5 m

This creates a stunning water display, dancing to the rhythm of the music you have chosen.

At night the fountain fascinates every spectator by the changing light and colour effects.

Easy to install, easy to clean and easy to operate.

Application:

- Lakes
- Rivers
- Pools
- Harbours

If you want all in one!
